Unique Characteristics

A vigorous vine with mildly aromatic white flowers that bloom from August through October. It is best used in native plant gardens and woodlands.

Plant Type:	Vine
Native Range:	Eastern North America
Sun:	Full sun to part shade
Water:	Medium to wet
Soil:	Well drained
Height:	12-20 feet
Spread:	3-6 feet
Wildlife:	Good for areas prone to deer damage, will attract pollinators
Hardiness Zones:	3-8
Bloom Time:	August to October
Bloom Color:	White
Uses:	For woodland and native plant areas where it can scramble along the ground over shrubs and along fences. May be grown on trellises, arbors, or posts. Not for formal garden beds.
